TECHNICAL SKILLS

Languages: JavaScript, Python, Dart, Typescript, Java, C/C++, SQL, HTML5, CSS3
Frameworks/Libraries: React Js, Redux, Node Js, Express Js, Tailwind, Flutter, Shadcn, Material UI
Databases: Mongo DB, Firestore, My Sql, Appwrite
Developer Tools: Git, Github, VS Code, Android Studio, Postman

EDUCATION

Sigma University, Vadodara   August 2024 – Ongoing
Master's in Computer Applications — Distance   *Vadodara, Gujarat*

Kurukshetra Univeristy, Ambala   August 2021 – June 2024
*Bachelor's in Computer Applications -**Percentage 71.6%***   *Ambala, Haryana*

EXPERIENCE

Software Developer at Yug Abhiyaan Times   July 2024 - December 2024
Flutter, C-Panel, React Js, Appwrite, Node.js   *Vadodara, Gujarat*
- Independently designed, developed, and published a **website** and **mobile app** from scratch using **Flutter**, including a robust **admin panel** with multi-role management for seamless operations. 🔗 link
- Refactored and modernized legacy projects, enhancing code quality and aligning with current industry standards.
- Designed, developed, and deployed a **responsive static website** using **HTML5**, **CSS3**, **JavaScript**, and **jQuery**, ensuring a clean and efficient user experience. 🔗 link
- Managed the **domains** and **hosting** of multiple websites, handling server configurations and ensuring optimal uptime.

Open Source

create-react-jaldi | 🌐 | ◯ | ReactJS, TypeScript, NPM   March 2025
- Developed and published an **NPM package** to streamline **React TypeScript/JavaScript** project setup, now with **1,100+ all-time downloads**.
- Provides a fully configured stack with **ESLint, Prettier, Shadcn, Vite, Redux Toolkit, React Router DOM, and Tailwind CSS**.
- Actively maintains updates, documentation, and community support on **GitHub**, fostering developer adoption.

PROJECTS

CodePencil – Online Code Editor | 🌐 | ◯ | ReactJS, Node Js, Firebase, Socket.IO, Vercel   April 2024
- Developed and deployed an interactive online **code editor** allowing users to **create profiles**, set avatars, and **save** their projects. Currently has **15+ active users**.
- Integrated **Firebase** for **authentication** and **Firestore** for secure data storage.
- Implemented a **draggable** code editor for **HTML, CSS, and JavaScript** using **CodeMirror** and **Split.js**.
- Built a **real-time live coding** feature where **multiple users** can join rooms and collaborate using **Socket.IO**.

Snapgram – Social Media Web App | 🌐 | ◯ | ReactJS, TypeScript, Appwrite, Shadcn   February 2024
- Developed and deployed a social media web app allowing users to **drag and drop** photos and **upload** them using **Appwrite** as a backend service.
- Implemented **search functionality** enabling users to find posts via **tags, captions, location**, and search for **other users** by username.
- Added key features like **like, save, infinite scroll**, and more for an enhanced user experience.

Zomaggy – Food Delivery Website | 🌐 | ◯ | ReactJS, Firebase, Redux Toolkit   December 2023
- Developed a food delivery web app similar to Swiggy with **real-time fetching of restaurants** based on the user's **location**.
- Integrated **Firebase** for authentication and an **external API** to fetch the user's delivery address.
- Implemented **cart functionality** supporting all **CRUD** operations.
